

Massachusetts Municipal Police Training Committee
Firearms Instructor Recertification Program

PHYSICAL SKILLS EVALUATION FORM

EXPLANATION OF IMPLEMENTATION

All participants are required to bring with them all materials they utilize while instructing at their own agencies. These should include safety / medical equipment, Instructional aids, courses of fire, etc... These materials will be used by the instructor while participating in the Physical Skills Assessment portion of the recertification course.

In order to be evaluated students will be divided into groups of five participants that will then call a course of fire for the other students in attendance. This process will continue until all participants have been individually evaluated while calling at least one stage of a course of fire and acting in all other instructional / safety capacities.

The form can be found on the next page.
