Notes

1. This course was modified from the MPTC Concealed Carry / Back Up Gun Qualification Course for use by LEOSA Instructors to test retired officers who wish to qualify to carry a concealed weapon under the provisions of the Law Enforcement Officers Safety Act. Under 515 CMR 6.04(2)(b)(2), 10% of the rounds in the qualification course must be fired from the 10 yard line. To meet this requirement, the five rounds fired at contact distance on the MPTC Concealed Carry/BUG course were moved to the 10 yard line.

2. This course of fire may be fired with any pistol or revolver with a capacity of 5 rounds or more. This course of fire takes into consideration that most retirees will not carry reloads for their weapons.
